Subject: **Andamooka Gem Crystal Reds & Greens OFFER 1 Sep 2010**

Hi everyone

Yesterday an Andamooka bloke walked into my office with 3 gem crystal stones showing brilliant greens and reds .615oz and you can have them for only \$2,500. You can make a beautiful pendant, ring and matching earrings from this stone, in fact two of the stones fit together and were obviously split in the mining. Seldom do we get such beautiful clean stones from anywhere let alone the magnificent Andamooka opal field.

Regards

Murray
