Subject: Boulder, Mintubi, Black Jade OFFER 21 Jan 2010

Hi Folk

This week we have some beautiful Boulder and Mintubi pieces to show you.

There is also a magnificent piece of Australian Black Jade weighing 18.8oz it is 5" long, 2.5" wide and 1.5" thick. When you look at it from the side it looks like a racing car without wheels so it could be a futuristic car that travels through the skies. I am considering having it made into black jade focal beads as it will yield much more than \$500 but if you are quick it's yours for \$500.

IMG_5658 is a beautiful Andamooka opal on Matrix stone 10.25cts, a gift for only \$275, it's already cut and polished, I highly recommend this stone. The back is interesting because it has black Matrix with some colours through it, it would make a beautiful pendant stone. In fact my wife would wear it as a ring.

We would like to thank the many enquiries we have had regarding the flooding in Queensland Australia. The situation has been heartbreaking for many Australians in that area, our heart goes out to them. As I write this email in the State of Victoria many towns too are flooding but we at Australian Opal Mines in South Australia have been spared such agony, thank goodness. Every day we are hearing of such heroic deeds and the compassion of fellow Australians which lifts our spirits right throughout our country.

Murray
