Subject: **CLEARANCE Damaged stone OFFER 25 Mar 2010**

Hi folks

Today we have some damaged stones they are cracked and from the Coober Pedy 12 Mile Field, brilliant in colour. They have only cracked after they have been cut.

We are offering them to you for only \$4/ct now there is \$60/ct and \$70/ct material in here.

The stones will always hold together.

Some people use something to fix cracks we don't. We thought that a lot of these would be very very suitable for wire wrapping.

The parcel was 251cts, Heather has separated just a few so it is not such a big parcel for one person. We have quite a number we haven't yet photographed.

We can recommend these stones to you for their colour but remember there are cracks there. There is one kingstone weighing 37.4cts, it is cracked, it has a bit of a webbing appearance if you look at it carefully, from a distance you would have no idea. If that stone wasn't cracked it would be worth \$1,000 by itself as it is, we will be selling it for only \$149.60.

First in best dressed.

Regards

Murray
