Folk

Here are eight stones that you are going to find it hard to resist because we are going to give you a chance to purchase some beautiful cut Mintubi stones at very very very reasonable prices. We can only do this because a miner needed money badly to pay his doctors, he was forced to sell these stones. Two or three of them have natural flaws, I have written on the ones that have.

I particularly like a couple of the semi blacks, there is one there weighing 18.33cts for \$642, we are allowing it to be sold for only \$321. That's a magnificent piece. It's 2/3 the length of my little finger and I'm a big man. The contrast of colours in this stone are just superb.

I love the semi black for \$272, it has some beautiful black markings through it and sweeping colours, it is one that will really make you happy.

The double sided triangular stone for only \$168 is an absolute bargain. One side has a beautiful broad flash with sheeny colours, the other has beautiful deep reds and blues.

We are expecting to be rushed on this one because where else are you going to buy opals at this price other than Australian Opal Mines recognising that there is a global financial crisis? We have been able to help our mate that needed medical attention and that'll help you. Incidentally our mate is doing pretty well.

Regards

Murray

PS if you would like some smaller stones, the same deal only 50%, I have another parcel which I could break up. The stones in that would probably be as little as \$100 for some. MW
