Subject: Hand Made Opal items and Gold Nuggets OFFER 13 Oct 2010

Well today we have something very very different to offer you. We have some quite lovely Boulder opals set in silver. These are the only three we have ever had and I am not sure that we'll ever get any more. Heather has taken some good pictures of them. I only have them because my wife spotted them where a guy was hand making them, he does brilliant work. He sits in a wheelchair. You won't believe the material he's got, he is very patient and skilled. He has been involved in a number of Olympic games as a power Olympian, I saw some medals he had won including a gold medal. He only showed these to me after I had selected these items knowing that a number of our clients would love them.

Len Cram is at it again. He has just finished a book "Opals the beautiful Gem of Passion". It is only a 16 page booklet with an interesting cover. Again this little booklet is only \$9 and no doubt it is going to be like everything else Len does and become a collector's item. We would urge each and everyone of our thousand customers to own one of these. The pictures are beautiful. You'd tip more than \$9 for a meal or some service anywhere and you'll get some beautiful pleasure out of looking and reading this booklet. There are pictures of all sorts of opals, there is a page on facts and myths. There is even some pictures of the most beautiful inlaid jewellery that has ever been made, all for only \$9. I'd pay \$9 just to have a look at the book but you can own it forever for that little money. Rather than spending postage just on that when you next order something ask us to put in a copy of "Opals the beautiful Gem of Passion".

Gold Nuggets

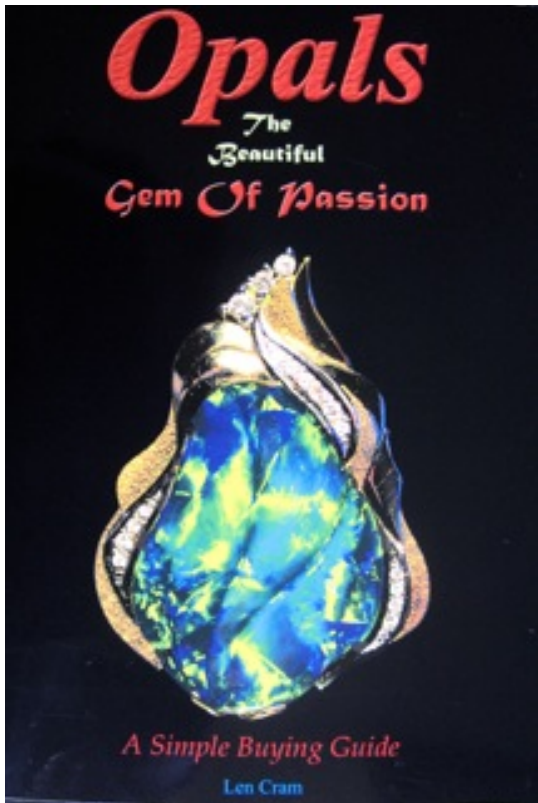

One of our clients makes part of his living by finding gold nuggets mostly in Victoria, Australia. Below is a picture of a small nugget he has given to me as a gift IMG_3015. When I was recently in London one of my clients flew from another part of Europe to discuss opals and advised me that he would be very interested in small but clean and unique gold nuggets. It occurred to me that many of you who are interested in opals may also like a gold nugget or two. If you would like some let me know and I'll see what I can do for you? I am sorry but I can't sell this gift and it's so beautiful, I wouldn't like to anyway.

I have put in some pictures of some of my gold nuggets just as a matter of interest. IMG_3011 is not mine but belongs to a distant relative who wants me to offer it to my clients. One way it looks like a rabbit IMG_3011, the other way it looks like a dog IMG_3014 . The guy tells me it weighs about 13.6 grams and we have to get \$1,825US for it. If you are interested please let us know?

Regards

Murray
