**Subject:** **Lightning Ridge Nobbies OFFER 18 Aug 2011**

Lightning Ridge Nobbies would be suitable for carvers or even some of them suitable for knappers to make arrowheads etc.

The first eleven Nobbies are very very reasonably priced, I think they will suit carvers or knappers. For instance, IMG\_8176-87 for \$112 is the shape of an arrowhead and has some brilliant opal there and that could be knapped very nicely. IMG\_7658 for only \$125 is .6oz 93cts so it's huge and has some little mountains of brilliant opal coming from it, it is ideal for a carver.

Numbers twelve to eighteen are brilliant cutters, each stone will cut a stone. I absolutely love the \$147 13.5ct green crystal, it's a lovely shape and is well worth cutting and setting with diamonds. There are pair of earrings there for only \$143, they are very beautiful. I love the little black for only \$160 7.69cts and the big Nobbie for \$175 has the most glorious blue green stone in it, it'll be flat topped but a beauty and as you cut in the stone there is a chance you might find some more opal, you can't really see it from the outside but that's the nature of Nobbies. The Lightning Ridge freeform solid is double sided 19.6cts for only \$107, you just clean that up, put it on a swivel and have a gorgeous double sided pendant.

That's it for today folks.

We wish you well.

Murray
