Subject: Matrix Opal OFFER 10 May 2011

Dear Clients

Today has been a wonderful day for me. I decided I would make you a Matrix Opal offer. I opened a special safe with most of my matrix in it. To be honest it makes me wonder how we could ever afford to put this Matrix offer together but I have and I'm happy to share it with you.

One of the most exciting pieces is the first picture, the stone weighs 2.969oz which is approximately 460cts and this stone is only \$3,500. It has every colour of the rainbow, it's double sided, the top has just a beautiful broad flash greens, golds and next to it on another level is the most beautiful pinfire reds and golds. The stone has different blues and reds around its side and if you turn it over on its back its just all blues with a dash of green, it's a magnificent piece. Really I should show you this by itself and not with the other material but there we go.

Cast your eyes on this lot. It is really hard to know where to stop there are opals in here for as little as \$2.50/ct. There is a beautiful 55.55ct stone for only \$138.87 and then there is the 100cts special Matrix at only \$3.50/ct. The parcel has 25 stones, rectangulars, ovals, teardrops and one freeform. The whole deal is only \$350 or \$15/stone. You won't buy matrix opal for that money anywhere. If you are a dealer I suggest you look at this offer very carefully and approach us for a special payment plan.

There is a pair of matching 20mm x 21mm huge brilliant rectangular stones at only \$10/ct \$444.

There are some lovely blues there for \$131.22 which is \$6/ct I have seen material like that selling for \$22/ct.

Again a very exciting piece is the 55.41ct stone only \$1,662 at only \$30/ct, this stone is a gift.

I am so proud to be able to offer you goods at these prices.

There is one beautiful little natural Matrix stone here 6.86cts for only \$194. It's a beautiful piece unless you understood opal you would never guess what this stone really was, it is unique.

There is something here for everyone.

What about the 86cts 4 stones for only \$130 the lot. There is one stone in there that looks like a black opal huge 35mm x 15mm. When you sell this piece it's not unreasonable to ask \$15/ct it weighs 9.32cts which is only \$139.80, we are only asking \$130 for the whole 4 stones that are 86cts total. If this doesn't sell my name

isn't "Murray Willis".

If you want the best pendant of all time, the \$2,524 has the most brilliant bright broad flashes, blues, greens, golds. People will come up to you and ask what you are wearing. You could pay \$200,000 for a diamond that wouldn't be half as beautiful as this stone, it measures 53mm x 36mm and is an eye stopper.

Please take your time and look at this special offer. There are even two beautiful carved ladies, one for \$660 and the other \$1,320.

This really is an exciting offer and I hope that you should take at least an hour to go through what's here. If you are a dealer there are big profits if you are not there are wonderful stones for you to keep here.

Some of them are good enough to be family heirlooms, that's in fact what the 41.85ct for \$2,090 is. I have taken one stone out of this parcel and had it set for my wife and my two daughters wear it, we refer to it as our 'family heirloom'.

Enjoy the look.

Regards

Murray
