Hi Folk

We have a beautiful Dark Base Purple and Green Mintubi Specimen, it is 2.1oz. It sits on sandstone and you could actually cut some stones from this specimen. The brown you see across the top is mud and that can be ground off and the whole thing polished for only \$120, it's a bargain.

We have some Dark Base Mintubi Verticals with beautiful purples, blues and greens. Heather has done her best to pair them up in the rough. We are only asking \$100 per pair and are most reasonable in price. Some are bigger than the others so it'll be first in best dressed. There are 8 pairs. They can be polished up to make beautiful earrings. The largest of them is approximately 30mm x 12mm and the smallest approximately 14mm x 20mm. If you bought an extra one you could even make a pendant to match. I highly recommend them to you.

Regards

Murray
