**Subject:** **Stunning Green Opal strands OFFER 19 Aug 2010**

Hi folk

Today we have a selection of green opal strands from both the Andamooka and Lambina fields.

If you love earthy colours you should have one of these stunning green opal Boulder strands from Andamooka. They are just sooo gorgeous. The green opal is very prominent against the browns, you could even say they glow. We only have a few of these strands so be quick.

You can imagine everyone's attention and eyes just glued to the brilliant Lambina Greens with Reds rectangular shaped bead strand. Our photos do them no justice at all. They are truly beautiful and a treasure to behold. If you are interested in securing a few loose rectangular beads cut from the same rough please send us an email and we will give you some prices.

If you would love one of these strands, remember we are happy to discuss payment plans with you, just ask.

We hope you have enjoyed our offer.

Best wishes.

Heather
