Subject: Triplet OFFER 18 Aug 2010

Many of you wouldn't have known that we actually sell triplets. We haven't made a big thing of it over the years but we do have quite large stocks. One of my best mates is perhaps the biggest triplet cutter in the world so we have a very very very good deal and we are happy to pass it on to you.

Below are many different grades for you to select from. There are some specials there, some 8mm x 6mm at only \$6 and some 10mm x 8mm at only \$12. They don't fit into our normal category but we have had a lot of them cut and we are happy to pass them off to you as special deals. The 8x6's and 10x8's are by far the most popular size as they fit into standard settings.

Don't knock us over in the rush but you had better be quick to ensure that you get the best of this latest offer.

We thank you for your business and we look forward to hearing from you.

Regards

Murray
