**Subject:** Why are frogs so popular? OFFER 31 Mar 2010

Hi folk

One of our clients asked us **Why are frogs so popular?**

Below is my answer to her:

*We just stumbled across the fact that lots of people collect all sorts of frogs. material frogs, painted frogs, pottery frogs, the lot. So what better to add to a frog collection other than an opalized carved frog?*

*Same with cats, elephants, birds. You name it there are collectors who collect them.*

*Now opals are all different, seldom do you get 2 opals the same so just imagine how many opal frogs one could collect.*

*We have bears, wild sheep and all types of critters.*

*They look great as pendants or with smaller ones to have ring, something different. PEOPLE LOVE THEM, ESPECIALLY IN OPAL.*

If you don't collect frogs but there are other things you would like as I have said we can carve all sorts of things, we would be happy for you, we may already have it in stock, if we have that's fine if not we can cut it and send it to you. If you are happy with it you can send it back because if you don't like it someone else will. Opals are beautiful and opal carvings are unique. There are not many done. You get a beautiful animal, bird, insect, flower or whatever carved in an opal is something special. We don't usually use top gem material because it makes the carving too expensive but we can cut something for you very reasonably. Give us a go!

Regards

Murray
